Installation

Maven Installation on Windows

Go to `maven.apache.org` and download Zip file and expand into `c:\devtools`

```
mvn -version
```

Maven Installation on Mac OS X

Go to `maven.apache.org` and download tar.gz file.

```
cd /
pwd
sudo mkdir /Development
cd /Development
pwd
sudo tar -xvzf ~/Downloads/apache-maven-3.2.5-bin.tar.gz
ls
cd apache-maven-3.2.5
ll
pwd
sudo ln -s apache-maven-3.2.5 maven
ls -al
cd maven
pwd
cd bin
ls
./mvn -version
cd
mate .bash_profile
# edit file to add M2_HOME environment variable and add to path
# close terminal and re-open
echo $M2_HOME
mvn -version
```
